

AL KAMEL SYSTEMS - PPTRACKER SYSTEM

Timekeeping Services | Race Control Solutions | TV Graphics | Rally Tracking
Security Services | Road Book Services | Radio Systems | Turnkey Projects

PTracker and PTracker Lite provided by Al Kamel Systems are the official GPS tracking and signaling systems for the SuperCampeonato de España de Rallyes. These devices have been designed for all types of rally competitions and will be used for Reconnaissances, Special Stages and Shakedown of the events of the S-CER. The purpose of these systems is to improve the safety and visibility of participants.

PPTracker Lite System provided by Al Kamel Systems is the official GPS tracking and signaling system for reconnaissance of the SuperCampeonato de España de Rallyes. The device must be installed and used as indicated in this manual, taking into account that it must be mounted on the vehicle for the reconnaissance throughout its entirety and must be returned as soon as it has been finished.

1 day Reconnaissance:

- Place the device with the screen facing the user and the upper part facing the windscreen of the vehicle, directly focused on the sky and without obstructions.
- Make sure that the surface is clean so that, once the protective plastic is removed from the velcro on the back, it can be fixed.

Several days

- Place the device with the screen facing the user and the upper part facing the windscreen of the vehicle, directly focused on the sky and without obstructions.
- Make sure that the surface is clean so that, once the protective plastic is removed from the velcro on the back, it can be fixed.
- Connect the cigarette lighter plug to the vehicle to supply electrical power to the device.
- Connect the cigarette lighter to wall adapter overnight.

The device will work completely autonomously without the need to press any button. It will indicate the following:

- Sound alarms:
 - Discontinuous beeps when speeding
 - 2 beeps at stage entry and exit
- Flash alarms:
 - Yellow: 3kph under the limit
 - Red: Overspeeding

The PPTracker System provided by Al Kamel Systems is the official GPS tracking and signaling system for the shakedown and special stages of the SuperCampeonato de España de Rallyes. The device must be installed and used as indicated in this manual, taking into account that it must be mounted on the competition vehicle prior to technical scrutineering.
